Education

Teach.Bit

SEPTEMBER 2024 – PRESENT

During my time at **teach.Bit**, I consistently excelled, being recognized as the top student in the course. I demonstrate my ability to learn rapidly and apply skills in real-world scenarios. I developed web applications using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, and **React**, and version control with **Git** and **GitHub**. I also expanded my expertise in backend technologies, guided by a dedicated mentor who provided invaluable support throughout my learning process. This experience significantly accelerated my growth as a developer and deepened my technical proficiency.

Informatics, Vasile Alecsandri University, Bacau

AUGUST 2017 – AUGUST 2020

During my time in college, I built a strong foundation in programming languages and web development from the ground up. I learned the fundamentals of **HTML**, **CSS**, **JavaScript**, and **SQL**, while also gaining a solid understanding of **data structures**, **algorithms**, and **object-oriented programming (OOP)**. These experiences gave me a comprehensive understanding of full-stack development and prepared me to tackle real-world projects.

Technical skills and competences

Problem solving skills.

Analytical skills.

Multi tasking.

Quick learner.

Projects

React.Js Portfolio

FEBRUARY 2025 – MARCH 2025

I built my portfolio using **React** and **vanilla CSS**, creating a responsive and visually appealing design from scratch.

You can view the project here: <https://react-portfolio-alex.netlify.app/>

Game platform React.Ts

MARCH 2025 – MARCH 2025

I built this project using **React** and **TypeScript**, leveraging **JavaScript built-in methods** to optimize functionality. For the design, I explored the **Chakra UI** library, creating a clean and responsive user interface.

You can view the project here: <https://game-platform-react-ts.vercel.app/>

React.Js Ecommerce App

JANUARY 2025 – FEBRUARY 2025

I built this project using **React.js** along with **Bootstrap** for components and design, as well as **CSS** and **JavaScript** for styling and functionality. I utilized **Context API** for state management, **React Router** for navigation, and **Axios** for handling API requests. Additionally, I leveraged **JavaScript built-in methods** to enhance performance and interactivity.
