Projects

React.Js Portfolio

FEBRUARY 2025 – MARCH 2025

I built my portfolio with React and vanilla CSS and

Here you can see the project: <https://react-portfolio-alex.netlify.app/>

Game platform React.Ts

MARCH 2025 – MARCH 2025

I build this project with React, Typescript, built in methods in Javascript and for design I explored the Chakra.UI library.

Here you can see the project: <https://game-platform-react-ts.vercel.app/>

React.Js Ecommerce App

JANUARY 2025 – FEBRUARY 2025

I build this project with React.js, Bootstrap components and design, CSS, Javascript, Context API, Axios, built in methods in Javascript.

Here you can see the project: <https://ecommerce-react-alex.vercel.app/>

Photo App Javascript

DECEMBER 2024 – JANUARY 2025

I build this project with Html, CSS, Javascript, Local Storage, for the programming concept I used OOP, routing for different pages and for fetching the data I used async await.

Here you can see the project: <https://photoappjs.netlify.app/>
